Tel: 01323 846 425 Fax: 01323 441 008

Free site surveys | Same day delivery or collection | Emergency call 24hr service  
Hassle free hire | Competative hire rates | Experienced helpful and friendly staff

HSE legislation states that fall protection measures must be put in place by the employer of any individual working at height where a fall hazard exists.

At Extreme Powered Platforms, We take safety very seriously and always do our best to provide a safe service to our customers.

Every machine undergoes a pre-delivery inspection before being released for hire from our depot. If the machine fails the inspection it will be removed from the hire fleet until it has been repaired and passes a repeat inspection.

Extreme Powered Platforms offers a formal hand-over or Familiarisation Service to customers hiring a self-operated machine. Customers requiring this can simply book this free-of-charge service at the time of placing their hire.

Training to IPAF standard is available to all our customers, either at one of our training centres or at the customer's premises or on site. Please contact us for further details.
